Appendix A: 2025 Canoe Slalom Performance Standards:

Calculation of Canoe Slalom Race Performance Standard

A.1. The Race Performance Standard is based upon the Best Single Run Score (BSRS) achieved by the event **winner** in a given race. For the purpose of this selection process, the event winner is defined as the BSRS achieved by anyone racing in the Senior, U23 & Junior selection event including any pre-selected athletes. The athlete posting the BSRS must have entered the race (e.g. demos do not count but a pre-selected boat who has entered the race would count). Performance Standards in all events are worked on scores (accuracy 0.01 seconds) as a % of the BSRS achieved on each race.

Example percentage calculation on single run

Class BSRS - WK1 = 94.44 secs total; 5th place WK1: score = 105.93 secs total, thus 5th place WK1 percentage: 112.20%. As this result is less than 117.0% the Performance Standard has been achieved.

Calculation of Canoe Slalom Average Performance Standard

A.2. Performance Standards can be achieved on any race in the up to 4 race series.

A.3. The table below details the number of race runs that will be used to calculate an athlete's Performance Standard.

Team	Number of race runs to calculate performance standard (rounded up to nearest whole number if fewer races completed)
Senior Team	Average of the Best 3 percentages from up to 4 races
U23 Team	Average of the Best 2 percentages from up to 4 races
Junior Team	Best percentage from up to 4 races

A.4. The tiered system accounts for development at junior level to performance at senior level.

Example average performance standard calculation

Senior - (102.74% + 101.11% + 102.04%) / 3 = 101.96%

Performance Standards for 2025 Great Britain Canoe Slalom Teams:

A.5. Subject to contingency, Performance Standards will be strictly applied as outlined below. If an athlete achieves the minimum Performance Standard from up to 4 opportunities calculated as specified in section A.3, they are deemed to have met the Performance Standard. Performance Standards can be achieved on any run in the race series.

	MK1	WK1	MC1	WC1
Senior Team	<108%	<113%	<111%	<116%
U23 Team	<110%	<117%	<113%	<121%
JUNIOR Team	<117%	<125%	<121%	<137%

Canoe Slalom Performance Standard Methodology and Ongoing Review

A.6. The percentage performance criteria have been adjusted based upon data from the period 2009-2019 and 2021-2024 and have been re-assessed for 2025. The Performance Standards do not reference the 2020 season due to International data not being fully representative. Standards are based on a 3 year rolling average. The U23 & Junior percentages are based upon the performance standards required to achieve a World/ European championship semi-final calculated from the winning U23 boat.
